PROFILE

UI/UX Developer with 3.5+ years of experience in designing and developing user-focused, responsive interfaces. Skilled in Figma, Photoshop, Angular, HTML, CSS, SCSS, Tailwind, and Bootstrap. Experienced in converting UI designs into functional front-end components, improving user flows, and creating clean, modern interfaces. Strong in collaboration, problem-solving, usability, and performance optimization.

WORK EXPERIENCE

INTERLAND TECHNOLOGY SERVICES PVT.LTD.

JAN 2022 - Present

Payzobooks (Accounting Software)

- Designed and developed UI for all major accounting modules.
- Built sidebar navigation, menus, icons, and interactive components.
- Implemented full Dark/Light theme across the product.
- Created reusable Angular components (tables, modals, dropdowns, forms).
- Improved UX flows for invoices, bills, vendors, and purchase processes.
- Ensured responsive layouts using Bootstrap, Tailwind, and SCSS.

Indeal (B2B Marketplace Platform)

- Built complete buyer & seller UI layouts using HTML, CSS, Bootstrap.
- Developed the landing page from scratch with clean, fully responsive design.
- Created reusable UI components like cards, headers, navbars, and grid layouts.
- Designed dashboards, product listing pages, and profile screens for both user roles.
- Worked with backend team to match UI with workflows such as onboarding, listings, and authentication.
